Rennen™ International a leader in the custom after-market wheel industry in both forged and cast wheels. It offers its five individual cast wheel lines ZEN Performance Wheels, Rennen Luxury Wheels, Rennen Blue label, Estrella, ONYX and DONZ pro series. It also can offers a private label program to fit any specific customer's needs.

Rennen international cast wheels are engineered and developed in the USA and produced in low cost countries. We have designed, developed and manufactured wheels for marketers/distributors or retailers.

Each wheel is meticulously designed and tested in order to perform in its maximum ability. Our products have passed the most stringent European, Japanese, and International safety and quality certifications such as the ISO9002, QS9000, JWL, VIA, SFI, and TUV. If our products survive the rough you streets of NYC, it will survive on any street.

Rennen International has successfully developed programs for customers that demand the highest standards. We also have developed a variety of programs that support commodity pricing. We have designs that are readily available, already tooled or developed, or we can develop a private label program that allows you to have exclusivity to your design.
