

EXCLUSIVE PRIVATE LABEL ONE PIECE CAST PROGRAM

Rennen™ International is a leader in the custom after market wheel industry and offers a proven and successful private label cast wheel program that will fit your specific custom wheel needs. The five individual cast wheel product lines currently offered by Rennen consist of ZEN Performance Wheels, Rennen Luxury Wheels, Rennen Blue label, Estrella, ONYX and DONZ pro series.

Our current manufacturing process consisting of top quality gravity casting, low-pressure casting, and forged aluminum alloy. Rennen International has the capability to manufacture everything from single one-piece cast wheels to multi-piece forged wheels including custom exotic applications. We are able to develop almost any cast or forged combination of manufacturing currently being used in wheel manufacturing today.

Our private label program starts at the design level with its dedicated wheel designers that will assist you in designing styles that will sell in your specific market. From the design, engineering, testing and inspection, to the production process and finally shipping logistics, we monitor each and every step of the way. Dedicated Rennen™ employees are located at each of the manufacturing facilities (including cap and molds factories) that will be communicating information and status on a daily basis.

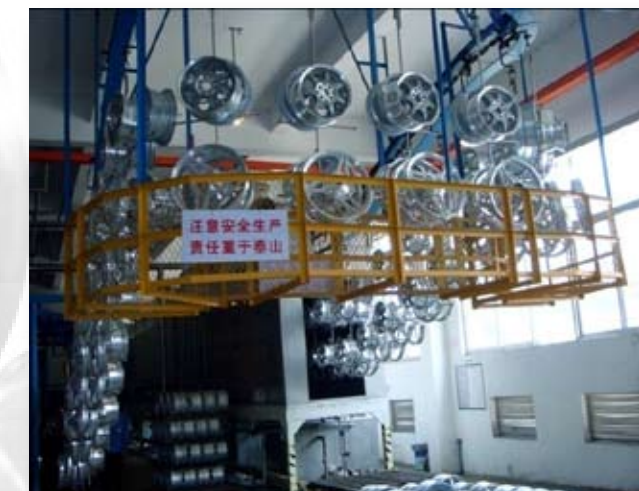

Our wheels pass the most stringent European, Japanese, and International safety and quality certifications such as the ISO9002, QS9000, JWL, VIA, SFI, and TUV. All wheels are meticulously designed and tested in order to perform to its maximum ability.
