

Body Kit Company Profile

Rennen Auto Accessories is a manufacturer and wholesaler of many products, which includes racing body kits. Our company has locations throughout the United States and manufacturing plants in several areas of mainland China .

With years of experience in the car industry, we understand what customers want and we strive to deliver the best products at a bargain.

Our unique manufacturing management system and quality control program ensures our body kits are made with the best fitment and quality. Both our fiberglass products and carbon fiber GT wings and hoods are of world class quality. This is already been agreed by our customers for several years.

Since we are experienced in international logistics and import/export issues, we can easily accommodate dealers worldwide and we can take care of transportation, duty fees, customs clearance, and any other issues you may face. We can even deliver the goods to your company's door! Ordering from can be almost as simple as ordering from any distributor near your area.

We currently have about 100 different styles of body kits and many spoilers, GT wings and hoods. We can also design and manufacture tailor-made kits for customers with a low minimum order quantity. Please contact us with the following details:
